Grant County Health District modernizes payment processing with Can/Am Technologies' Teller Cashiering Solution

Posted on JUNE 15, 2022

Lakewood, CO — The Grant County Health District in Washington State will be installing Can/Am Technologies integrated Teller Cashiering Solution to streamline health related payment processing and recording. The new system includes the addition of two front end cashiering stations with POS equipment with the capability to scan checks onsite. The District will be able to import transactional data to their financial system, streamlining this interface and allowing for better financial reporting.

The new system will improve day-to-day operations for District staff, while also making it easier for citizens to pay their bills.

Can/Am's Vice President of Sales and Marketing, Scott Stickel, commented *"Can/Am is looking forward to building a very positive and productive long-term working relationship with the District that will support their staff."*

About The Grant County Health District, Washington

The Grant County Health District (GCHD) was formed by the Grant County Commissioners on December 4, 1967. GCHD strives to make Grant County a safer and healthier place to live, learn, work and play. GCHD provides a wide variety of public health services that protect our community against diseases, injuries, and promote healthy lifestyles to all residents and visitors. Grant County is in the state of Washington. As of the 2020 census, the population was 99,123. The county seat is Ephrata, and the largest city is Moses Lake. The county was formed out of Douglas County in February 1909 and is named for U.S. President Ulysses S. Grant. Grant County comprises the Moses Lake, WA Micropolitan Statistical Area, which is also part of the Moses Lake-Othello, WA Combined Statistical Area

About Can/Am and the Teller Cashiering Solution

Can/Am Technologies, Inc. has been providing cashiering solutions to local and state government clients across North America for over 20 years.
