

# Welcome Joel Bettis

We are pleased to announce the addition of Joel to the Can/Am Technologies team as Full-Stack Software Developer.

Joel joins Can/Am as a Full-Stack Software Developer where he will be actively involved in the successful execution of Teller product designs. He will be participating in design meetings as well as interacting with clients to refine, test and debug programs in support of achieving their business needs. Joel will also be collaborating with third party Can/Am Teller partners to efficiently achieve Teller Cashiering Solution business and technology initiatives.

Joel recently graduated from the Colorado School of Mines Computer Science college with a Bachelor of Science degree in computer science. While attending college, he also worked as a Software Engineer Intern at a software development company called FivePoint Solutions, working as a full-stack web developer.

In his free time, Joel is an avid reader, enjoys playing strategy board/card games, as well as practicing Taekwon-Do, and playing ultimate frisbee.

Please join us in welcoming Joel to the Can/Am family.
