

## City of Redding, CA to modernize receipting system with Teller Cashiering Solution / Oracle Integration

Posted on November 9, 2022

**Lakewood, CO** — Can/Am Technologies, Inc., a leader in providing cashiering solutions to local and state government, announced the City of Redding, California will soon be benefiting from installing Can/Am's Teller Cashiering Solution in conjunction with Oracle's cloud-based integrated Financial solution. The new software installation will save time while creating efficiencies for staff and make online payments easier for city residents.

*The Sundial Bridge is a cantilever spar cable stayed bridge for bicycles and pedestrians that spans the Sacramento River in Redding and forms a large working sundial.*

The cloud-based system includes assorted integrations including Oracle Financials and Accounts Receivable, departmental/agency Revenue Submission and multiple real-time bi-directional interfaces to other City applications. Can/Am Teller's Check Scanning and Image Cash Letter solutions will also be installed.

City officials chose Teller's Integrated Cashiering Solution based on several key factors including comprehensive functionality, easy configurability, improved cash controls, smooth integration with Oracle processes, robust reporting, collection, and easy-to-use management tools.

**The City of Redding**, located in Shasta County, is the largest California city north of Sacramento with a population of over 90,000. Redding serves as the regional hub for commerce, education, professional services, medical facilities, and government. The city boasts stunning landscapes, 200 miles of hiking and biking trails, a range of cultural, musical, and educational events and a rich sense of community. Points of interest include the Turtle Bay Exploration Park, the Sundial Bridge, Shasta State Historic Park that holds the ruins of an 1800s gold-rush mining town and the Whiskeytown National Recreation Area with waterfalls and a lake.

### About Can/Am and the Teller Cashiering Solution

Can/Am Technologies, Inc. has been a leading provider of cashiering solutions to local and state government clients across North America for over 20 years.
