

Can/Am Welcomes Wells Kenney, Business Analyst

We are very pleased to welcome Wells as a Business Analyst. Wells will be responsible for bridging the gap between client needs and requirements and our technical staff using data analytics to assess processes, determine requirements and deliver data-driven recommendations. He will also be creating specifications and training documents to assist in smooth installations for our clients.

Prior to joining Can/Am, Wells worked as a Business Analyst at Credit Suisse in Raleigh-Durham, North Carolina. The skills he learned modeling business processes at operational and technical levels will complement our team, helping Can/Am to grow even further.

In his free time, Wells enjoys reading, as well as a variety of art forms, including listening to classical music and classic/art films.

Please join us in welcoming Wells to the Can/Am family.
