

## City of Bakersfield, CA to streamline receipt processing with Teller Cashiering Solution

Posted on December 1, 2022

**Lakewood, CO** — The City of Bakersfield, CA recently announced they will be installing Can/Am Technologies Teller Cashiering Solution in conjunction with Oracle Financial and Oracle A/R. The new software integration will improve payment processing efficiencies within multiple departments throughout the City.

**BAKERSFIELD**  
THE SOUND OF *Something Better*

The new system features payment batch interfaces with a variety of applications. An Online Customer Portal will streamline payments online for the City's customers. Teller's Check Scanning and Image Cash Letter solutions will also be implemented to improve staff productivity.

The City selected Teller's Integrated Cashiering Solution based on several key factors including comprehensive functionality, easy configurability, improved cash controls, Oracle and other software integrations, robust reporting, collection, and easy-to-use management tools.

### About the City of Bakersfield, California

Bakersfield is located at the southern end of the San Joaquin Valley in California. It is California's 9th largest city in population and 48th largest in the United States. It is also the county seat for Kern County. The total Bakersfield inner urban area, which includes East Bakersfield and Rosedale, has a population of about 464,000. Bakersfield is a significant hub for both agriculture and energy production. Kern County is the most productive oil-producing county in California and the fourth-most productive agricultural county (by value) in the United States. The city is the birthplace of the country music genre known as the "Bakersfield sound". It inspired many country artists including Buck Owens, Merle Haggard and Dwight Yoakam, as well as others

### About Can/Am and the Teller Cashiering Solution

Can/Am Technologies, Inc. has been providing cashiering solutions to local and state government clients across North America for over 20 years.
