

## Can/Am Welcomes Tyler Chin, Software Developer

---

We are very pleased to welcome Tyler as a Software Developer. Tyler will be assisting our Developer team by writing high quality shippable code, ensuring quality through testing, and provide technical/troubleshooting services for client support issues.

Prior to joining Can/Am, Tyler worked as a software engineer intern at Alarm.com. He earned a BS in Computer Science from Oregon State University. He is excited to join the team and put his skills to good use in helping Can/Am to continue to serve our clients.

In his free time, Tyler enjoys staying active playing disc golf, snowboarding, hiking with his dog, weightlifting, reading, and occasionally brewery hopping.

Please join us in welcoming Tyler to the Can/Am family.
